RE: Restrictions on over-the-air-Reception Devices CS Docket no. 96-83 and Preemption of  
Local Zoning Regulation of Satellite Earth Stations, 1B Docket no. 95-59.

Dear Mr. Caton:

I would like for you to clarify the possible effect on our business of the rules which are proposed in the above referenced dockets. For the record I am enclosing with this original, 13 copies of this letter for filing in the record. It appears that the proposed rules might make invalid "non-governmental restrictions" that impair the ability to receive video programming over the air, through a wireless cable or similar system or by direct broadcast satellite.

My company owns and/or operates more than 3,000 residential rental units; thus, we have entered into thousands of leases with residents and are concerned that our leases might contain terms that are "non-governmental restrictions" that "impair" viewing. Since we do not know how the proposed rules would be applied, this uncertainty could create unnecessary disputes with our residents.

I would appreciate your guidance in determining which terms in our lease might be considered "non-governmental restrictions" or "impairments" under the proposed rules.

I am enclosing a copy of one of our lease forms. Please let me know which terms would violate either of the proposed rules.
